

smAll-Trace Trace Element Boluses For Sheep

Bolus Technology

The presence of a grinder, given at the same time as the bolus, ensures constant dissolution

Resin skin controls release rate ensuring consistent daily supply of nutrients

Trace element matrix erodes and nutrients are released into the reticulum

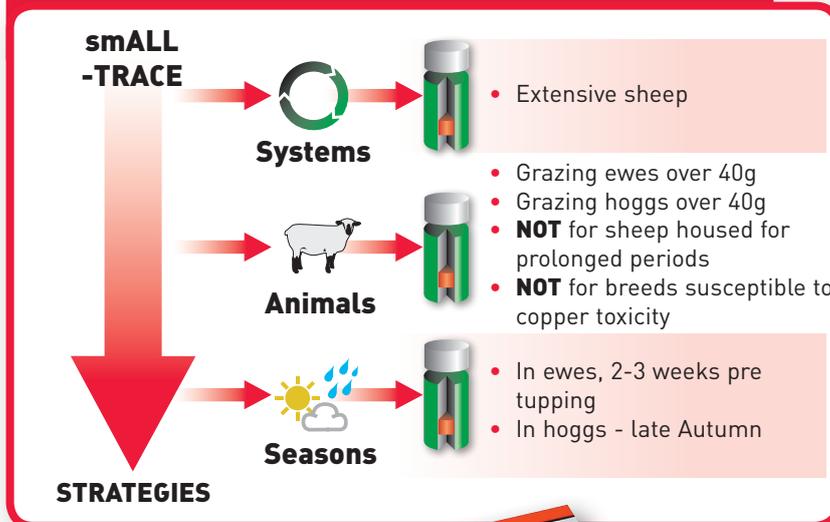

Dissolvable end-weight ensures bolus remains in reticulum. No residues left after active life

Active Component

Each bolus contains

Copper	3,944 mg
Cobalt	95 mg
Selenium	45 mg
Manganese	3,013 mg
Zinc	4,366 mg
Iodine	330 mg
Vitamin A	198,030 i.u.
Vitamin D₃	39,606 i.u.
Vitamin E	697 i.u.

Managing the trace element status of the flock over critical periods of the production cycle

Benefits

- Supply nutrients through to lambing
- Help maintain ewe health through winter
- Optimise conception rates
- Optimise lambing percentages
- Full range of trace elements
- **Active life 180 days**
- **Administer 1 bolus and 1 grinder per animal (over 40 kg)**
- **Pack size - 40 boluses**
