

DATA SHEET – 24-7 SMARTTRACE® PLUS ADULT SHEEP

Presentation

A 52g bolus containing the following trace elements:

Nutritional Additives		Average daily supply over 180 days from one 52 g bolus
Copper (Copper Oxide)	64,615 mg/kg	18.7 mg
Iodine (Calcium Iodate)	14,654 mg/kg	4.2 mg
Cobalt (Cobalt Carbonate)	2,798 mg/kg	0.8 mg
Selenium (Sodium Selenate)	1,272 mg/kg	0.4 mg

Uses

A dietetic complementary feed for the long-term supply of grazing sheep with trace elements. Intended for adult sheep, gimmers and hogs with a liveweight over 40 kg. Agrimin **24-7 SMARTTRACE® PLUS ADULT SHEEP** boluses are designed for situations where copper, iodine, cobalt and selenium supplementation is essential in the run up to tupping, at scanning or over-wintering. It can also be given to rams in advance of the mating season. **Do not use this product in breeds susceptible to copper toxicity or in sheep that may be housed for prolonged periods and fed concentrates. If in doubt, consult your veterinary surgeon or nutritionist.**

24-7 SMARTTRACE® PLUS ADULT SHEEP boluses are designed to lie in the reticulum. The wrapper on the bolus dissolves and the bolus breaks into two parts. These erode and dissolve thus providing a continuous and regular supply of nutrients to the animal over its 180-day active life. The bolus dissolves completely leaving no residue in the reticulo/rumen.

Simultaneous supplementation of additives with a maximum content from other sources to those incorporated in a bolus, if applicable, shall be avoided.

Before using, it is recommended to have advice from a veterinarian or nutritionist concerning:

1. The balance of trace elements in the daily ration
2. The trace element status of the flock

Dosage and Administration

Administer one 52 g bolus per animal

24-7 SMARTTRACE® PLUS ADULT SHEEP can be used on the following livestock: grazing adult sheep, gimmers, hogs or tups over 40 kg liveweight. NOT TO BE GIVEN TO BREEDS SUSCEPTIBLE TO COPPER TOXICITY

Always use the recommended Agrimin sheep bolus applicator A

Contra-indications, Warnings etc

There is no need to administer additional copper, iodine, cobalt or selenium during the active life of **24-7 SMARTTRACE® PLUS ADULT SHEEP** (180 days)

NOT TO BE GIVEN TO BREEDS SUSCEPTIBLE TO COPPER TOXICITY
MEAT AND MILK WITHHOLDING PERIOD – NIL

Pharmaceutical Precautions

Do not administer to sheep weighing less than 40 kg liveweight

Store in a cool, dry place

Reseal part used packs

Do not drop onto hard surfaces

Keep out of the reach of children

Legal Category

Dietetic complementary feed

Package Quantities

24-7 SMARTTRACE® PLUS ADULT SHEEP is packed in units of 50 (enough for 50 sheep)
